

## VP Drive GT 2.0

OPTIMESH

DIGITAL  
PROFILE

### Versatile solution for drivers

Although the vast majority of the time driving uses distance vision, it is also necessary to perform tasks inside the car that require good vision at intermediate distance. VP Drive GT 2.0 is the solution for daily use that improves vision while driving to ensure comfort and sharp vision.

DriveGT, A LENS FOR DAILY USE WITH SPECIAL FEATURES TO MAINTAIN A MORE RELAXED DRIVING EXPERIENCE.

-  Enhanced driver comfort and safety
-  Ergonomic position while driving
-  Personalized lens that considers the real position of wear
-  Improved contrast in low light conditions

RECOMMENDED TO

Presbyopes who drive daily and demand a versatile solution. VP Drive GT 2.0 is adapted to drivers and provides great results in terms of comfort and quality of vision for all daily activities.
